Thanks. We can bring speakers. It will be best to play our ppt from the thumbdrive, rather than uploading it to the EPA computer, because we have a short video clip at the end which is embedded in association with an MP3 file also on the thumbdrive. I would be willing to come early to test it out on the computer, if that can be arranged, or perhaps, just test it out at lunchtime, before our segment.

**Subject:** Fwd: NRRB Presentation Questions

Hi Kristine and/or Annie, could you please let me, Matt and Alex know if I have these answers correct and whether you have Windows Media Player?

My understanding is the source control presentation will be during the third part of EPA's presentation, which will occur after lunch. We do expect to load presentations onto the computer from people's thumb drives.

Thank you,  
Debbie Robinson

**Subject:** NRRB Presentation Questions

Hi Debbie,

A couple of logistic questions for Wednesday NRRB:

- What time is the DEQ source control presentation scheduled?
- We are going to bring a thumb drive with a PowerPt. We assume that there will be no issue plugging it in to the EPA set up.
- Also, we wanted to confirm that computer that is supporting the projector has Microsoft Windows Media Player loaded.

Thanks,

Matt McClincy
